

Future Begins Here

Modular Homes | Interior | Hospitality | Hydro Energy

Vrisa Innovation believes in bringing novelty with sustainable methods. We believe everyone deserves to live, work & should own healthy homes. Modernism should flourish without hampering the environment.

"Innovate and Create" is the foundation of our business, where each venture has been developed to contribute back to the society and its people.

Our Modular Homes begin their stories with on-site construction. Our clients are flexible to choose, modulate and innovates all our products to create a healthy structure for their personalized needs.

Vrisa Interiors concept has been designed to reflect yourself in your homes. It follows a vision of creation, whatever form it takes, must improve the lives of as many people as possible. The key to great interior is capturing the spirit of the client and the essence of the space.

Vrisa Hospitality is the business that aims at "Customer Satisfaction" and "Luxury" that makes people feel welcome and relaxed. We own our resorts at Mahabaleshwar location, which is perched atop a mountain spur and surrounded by Western Ghats dense forests. This resort offers the most divine and exquisite panoramic view of Pratapgarrh fort.

Vrisa Hydro Energy was established to produce its own energy generation plants across the country with a target production of 1 Cr units per annum. This production shall be further increased to 5 Cr units per annum capacity in a time period of 5 years. The aim of this company is committed to combat against climatic change and thus we have developed a holistic sustainability model.

OUR BUSINESS DIVERSIFY INTO ►

HYDRO ENERGY

RUSSIAN PINEWOOD

We are the company that brings the most seasoned natural pinewood from regions of Siberia and Russia. The high quality lumber is sourced from 90 thousand hectares of forest region of Russia. Our partners produces 25 thousand cubic meters of glued wood per annum, equivalent to 300 houses with an area of 120 sq. m. each. Each stage of construction is organized in strict accordance and accurately delivered on site. Glu-Lam Technology Siberian Pine was innovated to create the most exclusive luxury homes for our clients. Our Wood Profiles ranges from 120 x 185, 152 x 250, 182 x 250, 202 x 250, 252 x 250, 282 x 250/280(h) mm.

CANADIAN PINEWOOD

Our houses build from Canadian wood are sourced from world's certified forests which are sustainably managed and third party certified to forest standards such as PEFC/ FSC, assuring our clients of its environmental credentials. We have the support of FII, Canada for the procurement of wood and an expert team of wood specialists. Thus we deliver the most cost-effective and genuine quality certified wood. This wood is certified by global agencies - CSA (Canadian Standards Association), FSC, and SFI (Sustainable Forestry Initiative). Wood Species available with us are SPF, Douglas fir, Yellow Cedar and Red Cedar.

WOODEN HOMES & RESORTS

The Sustainable Alternative

Vriza Innovation has been constructing Sustainable Wooden Structures of GluLam (Glued Laminated Timber) since 10 years span with an ideology of bringing Green Building Methods in India by sourcing the best seasoned wood from Canada and Russia.

We transformed the wood and innovated the method of construction along with our partners in Russia by using GluLam Technology for Wood Construction.

VRISA PREFAB HOMES & VRISA PREFAB WOODEN HOMES

THE MUD HOUSE

Create your own beautiful world

Building mud houses is more of an art than science. Vrisa Mud house concept was designed to build structures that are carbon neutral, locally manufactured and that uplift the rural community. They impart a sense of being spiritual and constitute positive energy homes. Mud, a mixture of Earth and water, is a natural building material that helps to reconnect our users with their traditions.

AN EXCELLENT SHELTER

- Modern Technology with traditional materials to create economical attractive homes.
- An experienced team of architects and local artisans.
- Creates work opportunities for the village youth and boosts rural economy.
- Carbon Neutral & Low Maintenance homes that lasts for generations.
- Company with nationwide presence and instant reach.

VRISA DOMES

Glamour in the Camping

Vrisa Domes can be defined as "The strongest, lightest and most efficient means of enclosing space to man". As the leading manufacturer of dome structures in India, we place special emphasis on providing products of the highest quality, safety and functionality. Our Domes showcase the beautiful and mathematically perfect geodesic geometry in structures that are futuristic, sustainable and visually inspiring.

ADVENTURE TO GRANDEUR

- We craft each product & their customized interiors with the needs of our clients in mind.
- Domes re-invent the camping resorts and adds luxury to the camping.
- SkyView Technology is used to connect you with nature more closely.
- Safety in the wildness of the forest is assured by our domes.
- These domes can withstand wind pressure up to 100 km/hour with 10 years lifespan.

VRISA INTERIORS

A business of trust

Interior Design is art optimized to meet objectives. Vrisa Interiors concept is designed to reflect yourself in your homes. It should define who you are.

We believe designing one's space is a challenge which involves understanding the client's life to create balanced homes of comfort and luxury that are practical and desirable. Our interiors shall make your living better & keep you at ease.
